

Preliminary scientific program with some presentations

Another Phlebology International Phlebology Symposium

Budapest, Hungary

4-5 October, 2024

4 October, Friday

9.00 - 10.00 *Opening ceremony. Keynote lectures*

Andrew Nicolaides (Cyprus): Highlights and controversies in the 2024 International Guidelines on VTE

Peter Gloviczki (USA): Venous Guideline of JVS-VLD

10.00 - 11.30 *Pathophysiology. US diagnosis. Classifications*

Monika Gloviczki (USA): Venous circulation in the space

Sergio Giancesini (Italy): Real perforating vein incompetence

Lowell Kabnick (USA): Duplex Immediately Following Thermal Truncal Ablation Should Not Be Performed

Frantisek Zernovicky (Slovakia): The story of the unforgiving vein - or how to treat the popliteal fossa perforating vein

Imre Bihari (Hungary): Which sports should varicose veins patients avoid?

11.30 - 13.00 *Surgical and endovenous interventions on varicose veins.*

Lowell Kabnick et al (USA): New instrument in GSV treatment

Sergio Giancesini (Italy): Real meaning of a >0.5 saphenous reflux

Attila Puskas (Romania): Truncal varicosity in the shape of "S": diagnosis and therapeutic options

Imre Bihari (Hungary): Perforator vein glue treatment with no immune response

Imre Bihari (Hungary): What is the structure of the solidified glue?

Lunch break

14.00- 15.30 *VTE prevention and treatment*

Zsolt Pecsvarady (Hungary): How can vascular ultrasound help to prevent or treat recurrent pulmonary embolism?

Gabor Menyhei (Hungary): Thromboprophylaxis after endovenous procedures: a survey in Hungary

Athanasios Gianoukas (Greece): Management of high risk Superficial Vein Thrombosis

15.30- 16.00 *Symposium*

16.00 - 17.30 *Liquid and foam sclerotherapy*

Frantisek Zernovicky (Slovakia): Vulvar varicose veins - state of the art

Imre Bihari (Hungary): Removal techniques of post sclerotherapy clots

19.00 - 22.00 **Gala Dinner**

5 October Saturday

9.00 - 10.00 *Keynote lectures (Sergio Giancesini, Shoaib Padaira)*

Sergio Giancesini (Italy): Hemodynamic role of the ilio-femoral incompetence in SFJ recurrence

10.00 - 11.00 *Conservative treatment*

Gyozo Szolnoky, Alejandro Gonzalez-Ochoa (Hungary, Mexico): Multimodality of sulodexide

Gyozo Szolnoky (Hungary): Watch the heart in lipedema and lymphedema: it varies under compression

11.00 - 12.30 *Aesthetic phlebology*

Alexander Flor (Austria): Unwanted veins of the forearm and the hand: treatment options

Imre Bihari (Hungary): Sclerotherapy of corona phlebectatica

Éva Szabó (Hungary): Aesthetic aspects of sclerotherapy, with a special reference to hyperpigmentation

12.30 - 13.30 *Balkan Venous Forum Session*

Christos Karathanos (Greece): The role of great saphenous vein diameter on endovenous thermal ablation outcomes

Tanja Planinsek Rucigaj, Mark Sergej Bartenjev, Jelena Todorovic (Slovenija): The role of swab in detecting infection of chronic wounds

Lunch break

14.00 - 15.30 *Endothermal methods*

Lowell Kabnick (USA): Is Compression Necessary Post Thermal Ablation of Truncal Veins

Istvan Rozsos (Hungary): Microvawe surgery for varicose veins

Sara Lovasz et al (Hungary): Pregnancy as a possible reason for recurrent varicosity after laser crosssectomy

Imre Bihari (Hungary): Complete endovenous treatment of recurrent varicosities

15.30 - 16.00 Symposium

16.00 - 17.30 *Postthrombotic syndrome and crural ulcer*

Tanja Rucigaj (Slovenija): Role of medical honey in medicine

Hakan Uncu (Turkey): Treatment of venous ulcers

Nadjib Bouayed (Algeria): How to manage nut cracker syndrome?

17.30 - 18.00 *Closing ceremony. Awards prizes (Another Phlebology Prize)*

Poster session

Nadjib Bouayed (Algeria): Cerebral venous thrombosis

Oksana Riabinska (Ukraine): Persistent sciatic vein in a patient with an episode of pulmonary embolism
